

to prepare the installation of FATEX
in a kitchen extraction air system

We Solve Your Grease Problem. Longterm. Eco-friendly.

1. General Checklist

1.1 Extraction hood

- 1.1.1 Construction type ceiling hood wall hood ventilation cover
- 1.1.2 Number of air vents, branched off the hood /ceiling pieces
- 1.1.3 Dimension of the air vent(s) Ø mm L x W mm
- 1.1.4 Deposition of fat/fat content (degree) low normal strong

1.2 Cuisine

- 1.2.1 Kind of cuisine german asian mediterranean
- other (please specify)
- 1.2.2 Do you use deep fat fryer wok
- If so – below which exhaust air vent is it placed?
- 1.2.3 Asian cuisine – How many liters of oil are used per week? liters

2. Checklist electrotechnology

(If you are not sure how to answer the following questions, please ask an electrician for advice)

- 2.1 Is cabling with the ventilator cabinet possible? yes no
- 2.2 Is it possible to install a flow monitor into an air vent,
which branches off the kitchen hood?
(Please note: The extraction air vent needs to be accessible!) yes no
- 2.3 Does the pipe have a fire barrier? yes no
- 2.4 Is there a separate connection for power supply (230V/50 or 60 Hz)
near the hood (max. 2 m away)? yes no
- 2.4.1 If not, could it be retrofitted /upgraded by the operator? yes no
- 2.4.2 If that's impossible, too: How far away from the hood
is the nearest 230 V connection? mm
- 2.5 Is the cross section of your cable adequate (min. 3 x 2,5 mm²)? actual: x mm²
- 2.6 Do the fans of all kitchen extraction air hoods start up simultaneously?
(If more than 1 hood is used, only) yes no
- 2.7 Are the kitchen extraction air hoods switched separately? yes no
- 2.8 Which unit components join up?

to prepare the installation of FATEX
in a kitchen extraction air system

We Solve Your Grease Problem. Longterm. Eco-friendly.

3. Miscellaneous

3.1 open or closed ventilation ceiling (please include exact details about the air vents)

special design, requirements, government orders:

3.2 exact address of your property:

3.3 installation period – conditions

At which times the installation of our FATEX unit is possible?

Allow us to call your attention to the fact, that our mechanics need free access and mobility on your premises (in the area of your kitchen extraction air system) during the time of installation. If you want us to install FATEX at night, please make sure to inform your neighbours, as drilling work may cause some noise.

Please enclose appropriate dimension sketches and drawings of your exhaust air system, in particular of the kitchen hoods (including photos, wherever applicable). Our pattern sent to you might help you to prepare the information we need prior to installation.
